Introduction:

Welcome users to Watermelion Inc.'s Music Catalog. The site where you can browse thousands of songs on our homepage to meet your musical needs. With our website you are able to find sites where you can go to listen to the songs. We also allow you to add songs to the playlist you have created or favourite songs and view them in the favourite playlist. Also you can also see the playlists made by other users and allow other users to view the playlist created by you. If you are an admin user you won't have access to certain user only features like creating playlists, adding to a playlist, and favouriting songs. But you do have exclusive access to view all users within our account management panel where you can see their information and have access to features like blocking users from access to their account, deleting user accounts, and promoting other users into admins. Also as admins you have the ability to delete songs from the catalog, add songs to the catalog, and edit the song information(e.g. The title, play link, and e.t.c) of all songs available in our catalog.

How to Access our Software:

You can access Watermelion Inc.'s Music Catalog through our link https://music-catalog-8fyq.onrender.com/. If you are unable to access our software through the provided link, the host server may have been down at the time you tried to access our site. We kindly ask that you try again in a couple of hours.

Guide into how to access all the general features of our site:

If you haven't logged into your account the only features you have available to are: The ability to scroll through our catalog on the homepage, search for songs in our catalog, filter your search through our pre-made filters, create an account, login to your created accounts, return back to the homepage, logout and to change your password if you forgot your account password.

1. How to view songs:

   To view all the songs within our catalog, you must enter our site then the first thing you would see is our homepage. Through our homepage all songs are defaulted view through categories and can scroll left or move the scroll bar right to see the songs within that category or scroll down or move the scroll bar down to view all the other categories/songs.

   Video Demonstration: View Demo

2. How to search for songs:

   You can search for songs through the search bar located at the top of the home page. Within the search bar, please enter the words or letters located within songs you are searching for. Then click the search button or hit enter for the search to begin and you would see the results on the homepage. Note: If no songs match what you are searching for, the homepage will instead display no songs that match your search.

   Video Demonstration: Search Demo

3. How to filter your search:

   To filter your search results, you can click on the dropdown menus displayed to the right of the search bar. The dropdown menu closest to the search bar groups the results based on your choice of Genre, Artist, and Release Year while the other dropdown menu can further filter your results by changing the order of the displayed results from A to Z or Z to A.

   Video Demonstration: Filter Demo

4. How to create an Admin Account:
