- FAQ

Introduction:

Welcome users to Watermelion Inc.'s Music Catalogue. The site where you can browse thousands of songs on our homepage to meet your musical needs. On our website, you can find sites where you can listen to the songs. We also allow you to add songs to the playlist you have created or favourite songs and view them in the favourite playlist. Also, you can see playlists made by other users and allow others to view your playlists. If you are an admin user, you won't have access to certain user-only features, such as creating playlists, adding to a playlist, and favouriting songs. But you do have exclusive access to view all users on the account management panel, where you can see their information and access features like blocking users' accounts, deleting user accounts, and promoting other users to admins. Also, as admins, you can delete songs from the catalogue, add songs to the catalogue, and edit the song information(e.g., the title, play link, etc.) on all songs available in our catalogue.

How to Access our Software:

You can access Watermelion Inc.'s Music Catalogue through our link https://music-catalog-8fyq.onrender.com/. Please note that our software is being deployed using the free tier of Render; it may take 1-2 minutes for the website to load in your browser. If the problem persists, please switch to a different browser.

Guide on how to access all the general features of our site:

If you haven't logged into your account the only features you have available to are: The ability to scroll through our catalog on the homepage, search for songs in our catalog, filter your search through our pre-made filters, create an account, login to your created accounts, return to the homepage, logout and to change your password if you forgot your account password.

1. How to view songs:

   To view all the songs in our catalogue, enter the site and navigate to the homepage. By default, songs are displayed in categories. You can scroll left (or use the horizontal scrollbar) to see more songs within a category, or scroll down (or use the vertical scrollbar) to view additional categories and songs.

   Video Demonstration: View Demo

2. How to search for songs:

   You can search for songs using the search bar located at the top of the homepage. Enter keywords or letters related to the songs you are looking for, then click the search button or press Enter to begin the search. The results will be displayed on the homepage.

   Note: If no songs match your search, the homepage will display a message indicating that no results were found.

   Video Demonstration: Search Demo

3. How to filter your search:

   To filter your search results, you can click on the dropdown menus displayed to the right of the search bar. The dropdown menu closest to the search bar groups the results based on your choice of Genre, Artist, and Release Year, while the other dropdown menu can further filter your results by changing the order of the displayed results from A to Z or Z to A.

4. How to create an Admin Account:

   To create an admin account, go to the panel on your right and click the red "Create Admin Account" button. You will be redirected to a page where you can enter your information in the Username, Password, and Email fields. After filling in your details, click the red "Create Admin Account" button. Your account will then be created, and you can log in using your credentials.

   Video Demonstration: Create Admin Account

5. How to create a User Account:

   To create a User Account, you can do so by looking at the panel to your right. On the homepage, you will see a green button that says “Create Listener Account”. Once you click it, you will be redirected to a page where you can enter your information within the information fields of First Name, Last Name, Username, Email, and Password. Then click the red button “Create Admin Account” after you are done filling in your information. Now your account will be created, and you can log in with your account information.

   Video Demonstration: Create User Account

6. How to log in to accounts:

   You can log in to your account by looking at the panel to your right, on the homepage, and see Sign In. Underneath you will see the input fields Username and Password, where you can enter your username and password,d and then you click the blue sign-in button, then you will be signed in and be able to use general and listener/user or admin specific features. Note: This section can be used to sign in as a user or admin.

   Video Demonstration: Login

7. How to return to the homepage:

   To return to the homepage, you can press the Watermelon Inc Music Catalogue logo to be redirected to the homepage.

   Video Demonstration: Return to Homepage

8. How to log out:

   To log out, you merely have to press the logout button present in the top right corner of the page.

   Video Demonstration: Logout

9. How to use Forgot My Password:

   If you forgot the password to an account, you can reset it by clicking the “Forgot your password?” link. This will redirect you to a page where you can enter your username. An email will then be sent to the address associated with your account. Open the email and click the link provided. You will be directed to a page where you can change your password. After entering your new password, click the red button to update it.

Guide on how to access all the user-exclusive features of our site:

Now as a user/listener you have access to all the general features of our music catalog with some bonus features exclusive to just users such as: Viewing songs, listening to a preview of a song, redirecting to a site to listen to a song, favouriting songs and viewing favourited songs, creating a playlist, viewing recently viewed songs, adding to a playlist, view songs on the playlist, deleting playlist, editing the playlist name and making playlists public or private.

1. How to view a song:

   To view a song, click on it. You will then be redirected to a page displaying all the information we have about the song.

   Video Demonstration: view the song

2. How to listen to a preview of a song:

   To listen to a preview of a song within our catalogue, you can click on the play button on the album to play the song from the music website DEEZER or at the bottom to play it from Spotify.

   Video Demonstration: Play Song

3. How to go to a separate site to listen to a song:

   To listen to a song on a separate site like DEEZER, you can do so by looking at the embedded video, or you can click the DEEZER logo on the bottom right of the video, where it will be redirected to the DEEZER website of that song. If you look at the "Online Sources" section of the song information, you can see the available sources listed by their logos. Simply click on a logo to be redirected to that song's page on the selected platform.

   Video Demonstration: View Song on External Site

4. How to Favourite Songs and view them:

   To favourite songs, you click on the song you wish. You will be redirected to the song information/playlist page. At the bottom, you will see an orange "Add to Favourites" button, which you can click to add the song to your favourites. You can view your favourite songs on the Favourites playlist displayed on the left panel of the song information page.

   Video Demonstration: Favourite Demo

5. How to view recently viewed songs:

   To view your recently viewed songs, all you need to do is on the homepage, click the blue "playlist button," and you will be redirected to the song information/playlist page. Then click on the Recent tab, and it provides a list of all the songs you recently viewed. This is what you will default to.

   Video Demonstration: Viewing Recently Viewed Songs

6. How to create a Playlist:

   To create a playlist, click on a song you would like to add. On the song information panel, you will see an "Add to Playlist" section. In the dropdown menu, select "+ New Playlist," then click the green "Add" button. This will redirect you to a page where you can create a playlist by entering a name and choosing whether it should be private or public (it is set to private by default). Finally, click the red "Create New Playlist" button to create your playlist.

   Video Demonstration: Create a Playlist

7. How to add to a Playlist:

   To add a song to a playlist of your choice, first navigate to the song information panel. There, you will find an "Add to Playlist" section. Click on the dropdown menu to view all available playlists, select one, and then click the green "Add" button.

   Video Demonstration: Add to Playlist

8. view songs on the playlist:

   To view songs in a playlist, first navigate to your playlists by clicking the blue "Playlist" button. This will redirect you to the song information/playlist page. The left panel displays all the playlists you have access to. Click on a playlist to populate the center panel with its songs. You can then click on a song to view its information in the right panel.

   Video Demonstration: Viewing Playlist and Songs within Playlists

9. How to delete playlists:

   You can delete playlists by clicking on the trash bin icon when you hover over a playlist logo.

   Video Demonstration: Deleting a Playlist

10. How to edit the playlist name:

    To edit the name of a playlist, click on the wrench symbol when hovering over the playlist and change the name.

    Video Demonstration: Editing Playlist Name

11. How to make a playlist private or public:

    You can make a playlist private or public by clicking the lock/globe button when you hover over the playlist name. When the playlist is private, the lock stays a lock, but when it is public, the lock turns into a globe. Once a playlist has been made public, other users can now see that playlist.

Guide on how to access all the admin-exclusive features of our site:

Now as an admin you have access to all the general features of our music catalog with some bonus features exclusive to just admins such as: the ability to view all users and their username and email on a panel as a list, block/unblock/promote/demote/delete users using the administration panel, and the song list panel, add/edit/delete songs in the catalog.

1. How to view the administration panel with the user list:

   To view the administration panel, first click the red “Admin Home” button on the homepage. You will be redirected to a page with two buttons: “Song Dashboard” and “Account Management.” Click “Account Management” to view all users.

   Video Demonstration: Viewing User List

2. How to block & unblock users:

   On the administration panel, click “Block” to prevent a user from logging in to their account. Then click “Unblock” to restore access for any previously blocked users.

   Video Demonstration: Block and Unblock Users

3. How to promote & demote users:

   On the administration panel, click the “Promote” button to upgrade a selected user account to an admin account. Then click the “Demote” button to change an admin account back to a regular user account.

   Video Demonstration: Promote & Demote a user

4. How to delete users:

   On the administration panel, click the red “Delete” button to permanently delete an account.

   Video Demonstration: Deleting an Account

5. How to access the song list panel:

   To access the song list panel with all features for adding, editing, and deleting songs in the catalogue, first click the red “Admin Home” button on the homepage. You will be redirected to a page with two buttons: “Song Dashboard” and “Account Management.” Click “Song Dashboard” to view all songs with admin access features.

   Video Demonstration: Navigate to Song Dashboard

6. How to add a song to the catalogue:

   On the song list panel, look for the blue "+ Add Song" button, which will redirect you to a page where you can enter all of your song information. After inputting the information, click the green "Add Song" button to add your song to the catalogue.

   Video Demonstration: Add Song to Catalogue

7. How to edit a song in the catalogue:

   On the song list panel, click on a song, then in the song information panel, look for the Edit button at the bottom to edit a song. Click it to redirect you to a page where you can edit information about your song, then click the green "Save Changes" button to save your changes.

   Video Demonstration: Edit Song Information

8. How to delete a song from the catalogue:

   On the song list panel, click on a song, then in the song information panel, look for the red delete button at the bottom to edit your song, click it, and the song is deleted.
